

CLINICAL THERMOGRAPHY IS USED IN AIDING THE PROGNOSIS AND DIAGNOSIS OF:

- Altered Ambulatory Kinetics
- Altered Biokinetics
- Arterial Inflammation
- Arthritis
- Brachial Plexus Injuries
- Back Pain
- Biomechanical Improprity
- **Breast Disease**
- Bursitis
- **Candida**
- Cardiovascular Issues
- Carotid Insufficiency
- Carpal Tunnel Syndrome
- Chronic Fatigue
- Chronic Immune Deficiency
- Compartment Syndrome
- Complex Regional Pain Syndrome
- Cord Pain/Injury
- Cystic Formations
- Deep Vein Thrombosis
- Disc Disease
- Diverticulitis
- Dystrophy
- Facet Syndromes
- Fibrocystic Conditions
- **Fibromyalgia**
- Gallbladder Issues
- Grafts
- Headache Evaluation
- **Heart Disease**
- Herniated Disc/Disc Pulposis
- Hormonal Imbalances
- Hyperesthesia
- Hyperflexion Injury
- Hysteria
- Infectious Disease
- Inflammatory Disease
- Intestinal and Colon Inflammation
- Irritable Bowel Syndrome
- Ligament Tear
- Lower Motor Neuron Disease
- Lumbosacral Plexus Injury
- Lymphatic Congestion
- Malingering
- Median Nerve Neuropathy
- Migraine Cause
- Morton's Neuroma
- Muscle Tear

- Muscular Inflammation
- Musculoigamentous Spasm
- Myofascial Irritation
- Neoplasia
- Nerve Entrapment
- Nerve Impingement
- Nerve Pressure
- Nerve Root Irritation
- Nerve Stretch Injury
- Neuralgia
- Neuritis
- **Neuropathy**
- Neurovascular Compression
- Neuropraxia
- Nutritional Disease
- **Pancreatic Issues**
- **Periodontal Disease and Infections**
- Peripheral Axon Disease
- Pre-diabetic Screening
- Pre-stroke Conditions
- Raynaud's
- Referred Pain Syndrome
- Reflex Symp. Dystrophy
- Ruptured Disc
- Scoliosis
- Sensory Loss
- Sensory Nerve Abnormality
- Skin Abnormalities
- **Skin Cancer**
- Soft Tissue Injury
- Somatic Abnormality
- Somatization Disorders
- Sports Injuries
- Sprain/Strain
- **Stroke Screening**
- Superficial Vascular Disease
- Synovitis
- Tendonitis
- Temporal Arteritis
- Thyroid Issues
- TMJ Dysfunction
- Trigeminal Neuralgia
- Trigger Points
- Ulnar Nerve Entrapment
- Varicosities
- Whiplash

AND SO MUCH MORE!
